Pectocarya anisocarpa, a new species of Boraginaceae, and a revised key for the genus in western North America. 4
Calystegia oxyspura (Convolvulaceae), a remarkable new species from central California 8
Helianthus winteri (Asteraceae), a new perennial species from the southern Sierra Nevada foothills, California 15
Genetic diversity in Swallenia aleandri (Poaceae, Chloridoideae), a narrow endemic from the Eureka Dunes (Inyo County, California) 19
Discovery of Claytonia lanceolata var. peisonii in the San Bernardino Mountains perpetuates a history of taxonomic uncertainty 25
A newly discovered large and significant population of Castelia emoryi (Emory's crucifixion thorn, Simaroubaceae) in California 35
Factors determining mortality of adult chaparral shrubs in an extreme drought year in California 43

Submission of Manuscripts
Instructions for Contributors may be obtained at http://rsabg.org/scientific-publications or requested from the Editor-in-Chief (aliso@rsabg.org). Publication in Aliso is associated with a voluntary contribution of $50 per page to offset print publication. Costs of color illustrations are borne (in part) by authors. They are charged at $300 per printed page of color; RSABG affiliates and Aliso print subscribers are granted two gratis pages of color per year. Aliso is hosted online at http://scholarship.claremont.edu/aliso/. Under the CCL, authors retain ownership of the copyright for their work. Reproduction, posting, transmission or other distribution or use of the article or any material therein is permitted by Aliso but requires credit to the author(s) and journal.

Aliso: A Journal of Systematic and Evolutionary Botany is the scientific journal of Rancho Santa Ana Botanic Garden. International in scope, the journal specializes in plant evolutionary biology and systematics. Aliso also features papers on floristics and other facets of botanical research pertaining to the western United States and areas of comparable climate and vegetation. First published in 1948, the journal is named for the aliso, the Spanish word used by the early Californians for California live oak. The journal is also known for the elegant stand of oaks that graces the garden grounds. Pecans and holm oaks also feature in its namesake.
