- Wood anatomy of Loasaceae with relation to systematics, habit, and ecology
  Sherwin Carlquist
  583
- Southern oak woodlands of the Santa Rosa Plateau, Riverside County, California
  Earl W. Lathrop and Henry A. Ziulli
  603
- Ellagitanins as ultraviolet-absorbing floral pigments in Cucumis californicum
  Rin Scogin
  613
- Floral pigments and nectar constituents in the genus Puya (Bromeliaceae)
  Rin Scogin and C. Edward Freeman
  617
- Redescription and distribution of Muehl coronata (Liliaceae)
  James R. Shevock
  621
- Announcements
  622
- Errata
  628
- Index to Volume 10, Aliso
  629

The name of the journal, Aliso, is the word used by the early Californians for the sycamore (Platanus racemosa), a tree associated with the Rancho Santa Ana Botanic Garden. In other areas Aliso refers to the alder (Alnus sp.).

Aliso, Vol. 10, No. 4, was issued December 13, 1984.
