ALISO

A journal of taxonomic
and evolutionary botany

Rancho Santa Ana Botanic Garden, Claremont, California

ISSN: 0065-6275
Instructions for Contributors

Aliso: A Journal of Taxonomic and Evolutionary Botany is the scientific journal of Rancho Santa Ana Botanic Garden. International in scope, the journal specializes in plant evolutionary biology and taxonomy. Aliso also features papers on floristics and other facets of botanical research pertaining to the western United States and areas of comparable climate and vegetation. Recent titles and abstracts may be found at apt.allenpress.com. First published in 1948, the journal is named for the aliso, the Spanish word used by the early Californians for the western sycamore (Platanus racemosa Nutt.), a tree associated with the founding of Rancho Santa Ana Botanic Garden.

Submission of Manuscripts

Publication in Aliso is currently free of page charges, and page limits are generous. We encourage submission of longer manuscripts that would suffer from length reduction. The large journal format and expertise of a dedicated state-of-the-art printer, Allen Press (www.allenpress.com), facilitate the publication of high-quality illustrations. Instructions for Contributors and a Checklist for Manuscript Preparation and Submission may be obtained at www.rsabg.org/aliso or requested from the Editor-in-Chief (aliso.editor@rsabg.org).
