### Recommended Citation

(1996) "Front Matter, Issue 14, 1996," *Humanistic Mathematics Network Journal*: Iss. 14, Article 1.  
Available at: <http://scholarship.claremont.edu/hmnj/vol1/iss14/1>

This Front Matter is brought to you for free and open access by the Journals at Claremont at Scholarship @ Claremont. It has been accepted for inclusion in Humanistic Mathematics Network Journal by an authorized administrator of Scholarship @ Claremont. For more information, please contact [scholarship@cuc.claremont.edu](mailto:scholarship@cuc.claremont.edu).

**Humanistic Mathematics Network  
Journal #14  
November 1996**

## Invitation to Authors

Essays, book reviews, syllabi, and letters are welcomed. Your essay should have a title, your name and address, and a brief summary of content. In addition, your telephone number and e-mail address (not for publication) would be helpful.

If possible, avoid footnotes; put references and bibliography at the end of the text, using a consistent style. Please also put all figures on separate sheets of paper at the end of the text, with annotations as to where you would like them to fit within the text; these should be original photographs, or drawn in dark ink. These figures can later be returned to you if you so desire.

Two copies of the paper, double-spaced and preferably laser-printed, should be sent to:

Prof. Alvin White  
Humanistic Mathematics Network Journal  
Harvey Mudd College  
Claremont, CA 91711

Essays and other communication may also be transmitted by electronic mail to the editor at AWHITE@HMC.EDU, or faxed to (909) 621-8366. The editor may be contacted at (909) 621-8867 if you have further questions.

The *HMN Journal* uses the programs Microsoft Word and PageMaker for the Macintosh. If you used either of these programs to prepare your paper, it would be very helpful to us if you sent a copy of your file on diskette along with the printed copies of the paper.

## Note to Librarians

*Humanistic Mathematics Network Journal* issues #8-#14, ISSN#1065-8297, are the successors to the *Humanistic Mathematics Network Newsletter*, ISSN#1047-627X.

## Editor

---

## Cover

This is an illustration taken from D. Huylebrouk's article "Puzzles, Patterns, and Drums", in which a drum player from Burundi performs on an ornately decorated drum. Both the geometric nature of the decorations and the mathematical significance of the music played on the drum are explored in Huylebrouk's article.
