## CONTENTS

Map-making of plant biomass and leaf area index for management of protected areas Loretta Gratani and Maria Fiore Crescente	1
Wood and stem anatomy of phytolaccoid and rivinoid Phytolaccaceae (Caryophyllales): ecology, systematics, nature of successive cambia Sherwin Carlquist	13
SEM studies on vessels in ferns. 18. Montane cheilanthoid ferns (Pteridaceae) of North America Sherwin Carlquist and Edward L. Schneider	31
Phylogenetic relationships in Phoradendreae (Viscaceae) inferred from three regions of the nuclear ribosomal cistron. II. The North American species of <i>Phoradendron</i> Vanessa E. T. M. Ashworth	41
A phylogenetic classification of Polemoniaceae J. Mark Porter and Leigh A. Johnson	55
Typification and change in status of <i>Yucca schottii</i> (Agavaceae) Lee W. Lenz and Michael A. Hanson	93
Instructions for contributors	i
Checklist for preparation of manuscripts and illustrations	v

---

The name of the journal, *Aliso*, is the word used by the early Californians for the sycamore (*Platanus racemosa*), a tree associated with the Rancho Santa Ana Botanic Garden. In other areas *Aliso* refers to alder (*Alnus* sp.).
