Animal-Human Art

Trace Johansson

Trace's abstract paintings, drawings, music and poetry of humans and animals alike, are influenced by Victorian Transcendentalism, are moody and inspiring, and depict human-animal bonds and their relationship to the environment. She is interested in addressing love, dignity, compassion, altruistic social responsibility, and the spiritual awareness of it all, believing animals are sentient, conscious creatures that live in a state of awareness of being; closer to the source as creatures of being.
