A NOMENCLATURAL REVISION OF THE
HULSEA VESTITA COMPLEX

DIETER H. WILKEN

*Department of Biology, Occidental College
Los Angeles, California 90041*

In anticipation of the forthcoming *Flora of Southern California* by Philip A. Munz, it is desirable to record here certain new combinations in the genus *Hulsea* (Asteraceae) to be referred to in that publication. This revision is based in part on morphological, genetical and chemical studies incorporated into a dissertation submitted by the author as partial fulfillment of the requirements for the Ph.D. degree, Department of Biological Sciences, University of California, Santa Barbara.

HULSEA VESTITA A. Gray subsp. **VESTITA**

Hulsea vestita A. Gray, Proc. Amer. Acad. Arts 6: 547. 1865.
