Aliso: A Journal of Systematic and Evolutionary Botany is the scientific journal of Rancho Santa Ana Botanic Garden. International in scope, the journal specializes in plant evolutionary biology and systematics. Aliso also features papers on floristics and other facets of botanical research pertaining to the western United States and areas of comparable climate and vegetation. First published in 1948, the journal is named for the aliso, the Spanish word used by the early Californians for the western sycamore (Platanus racemosa Nutt.), a tree associated with the founding of Rancho Santa Ana Botanic Garden.

Submission of Manuscripts
Instructions for Contributors may be obtained at http://rsagb.org/scientific-publications or requested from the Editor-in-Chief (aliso@rsagb.org). Publication in Aliso is associated with a voluntary contribution of $50 per page to offset print publication. Costs of color illustrations are borne (in part) by the author. They are charged at $300 per printed page of color; RSAGB-affiliated and Aliso print subscribers are granted two gratis pages of color per year.

Aliso is hosted online at http://scholarship.claremont.edu/aliso/. Digital files of full-text articles become available one year from the date of print publication. Aliso applies the Creative Commons License (CCL; http://creativecommons.org/licenses) to all works published therein. Under the CCL, authors retain ownership of the copyright for their work. Reproduction, posting, transmission or other distribution or use of the article or any material therein is permitted by Aliso but requires credit to the author(s) and journal.
