*Aliso: A Journal of Systematic and Floristic Botany* is the scientific journal of California Botanic Garden (formerly Rancho Santa Ana Botanic Garden). International in scope, the journal specializes in plant evolutionary biology and systematics, as well as in floristics in California and the western United States. First published in 1948, the journal is named for the aliso, the Spanish word used by the early Californians for the western sycamore (*Platanus racemosa* Nutt.), a tree associated with the founding of the Botanic Garden.
