Aliso: A Journal of Systematic and Floristic Botany is the scientific journal of California Botanic Garden. International in scope, the journal specializes in plant evolutionary biology and systematics, as well as in floristics in California and the western United States. First published in 1948, the journal is named for the aliso, the Spanish word used by the early Californians for the western sycamore (*Platanus racemosa* Nutt.), a tree associated with the founding of the Botanic Garden.

CONTENTS

| | |
|---|----|
| Dedication | 1 |
| A tribute to Gary D. Wallace | 2 |
| Comparative leaf water absorption between chaparral island and mainland taxa: a common garden experiment <i>Humera S. Mirza, Lauren M. Tucker, Rodrigo Méndez-Alonzo, Edward G. Bobich and Frank W. Ewers</i> | 9 |
| A vascular flora of the South Fork Tule River, southern Sierra Nevada, Tulare County, California <i>Jessica M. Orozco</i> | 19 |
| Forty years of change in Piute cypress (<i>Hesperocyparis nevadensis</i>), a rare California tree, after frequent fire and drought <i>Amarina Wuenschel, Jim A. Bartel and Alexis Bernal</i> | 52 |

Submission of Manuscripts

Instructions for Contributors may be obtained at <http://calbg.org/scientific-publications> or requested from the Editor-in-Chief (aliso@calbg.org). Publication in *Aliso* is associated with a voluntary contribution of \$50 per page to offset print publication. Costs of color illustrations are borne (in part) by the author. They are charged at \$300 per printed page of color; CalBG affiliates and *Aliso* print subscribers are granted two gratis pages of color per year.

Aliso is hosted online at <http://scholarship.claremont.edu/aliso/>.
