### **Acknowledgements**

I would like to take a moment to express my deepest gratitude to my professors, family, and friends who have supported me and guided me throughout the past year. I would especially like to thank Professor Charlop who has been a mentor for me since my freshman year. With her guidance and support, she helped me find a field I am incredibly passionate about and has taught me more than I could have imagined. Her work at the Claremont Autism Center is nothing less than humbling, and I can only dream of one day being a clinician that is able to help people to the degree she has affected the lives of the children and families who attend her clinic. I hope to always stay in contact with her. Furthermore, I want to thank the Claremont Autism Center and the children, you always brighten my day, and you will always hold a special place in my heart. Finally, special thanks for the generosity of all the undergraduates working at the Autism Clinic who videotaped and participated in my skits.
