COLLECTIONS CONTAINING ARTICLES ON PRESOCRATIC PHILOSOPHY

Richard McKirahan, Pomona College

©2015

2015-03-02

This catalogue is divided into two parts. Part 1 (pages 1-6) presents basic bibliographical information on books and journal issues that consist exclusively or in large part in papers devoted to the Presocratics and the fifth-century Sophists. Part 2 (pages 7-52) lists the papers on Presocratic and Sophistic topics found in the volumes, providing name of author, title, and page numbers, and in the case of reprinted papers, the year of original publication. In some cases Part 2 lists the complete contents of volumes, not only the Presocratic and Sophistic-related papers. Please send suggestions for corrections and additions to the present version to Richard McKirahan at Pomona College: www.pomona.edu/academics/departments/classics/
