Aliso: A Journal of Systematic and Evolutionary Botany is the scientific journal of Rancho Santa Ana Botanic Garden. International in scope, the journal specializes in plant evolutionary biology and systematics. *Aliso* also features papers on floristics and other facets of botanical research pertaining to the western United States and areas of comparable climate and vegetation. First published in 1948, the journal is named for the aliso, the Spanish word used by the early Californians for the western sycamore (*Platanus racemosa* Nutt.), a tree associated with the founding of Rancho Santa Ana Botanic Garden.
