rhaas3141@yahoo.com

Here (without repetition) are all the words and names (of two or more letters) from the contents page of the previous issue ([January 2014, Volume 4 Issue 1](#)) of the *Journal of Humanistic Mathematics*. Find and circle them in the letter array, where they may run (forwards or backwards) horizontally, vertically, or diagonally. The remaining uncircled letters spell out a well-known humanistic saying with which mathematicians surely also agree.
